PROFESSIONAL SUMMARY

BCA graduate with a 7.41 CGPA, currently pursuing cybersecurity training at TOPS Technologies, Ahmedabad. Foundational knowledge of computer hardware, networking, and cybersecurity concepts, including IPv4, TCP/IP, the OSI model, subnetting, and basic network troubleshooting using Ping and Traceroute. Familiar with basic Linux commands and interested in developing a career in cybersecurity and security operations.

TECHNICAL SKILLS

- **Networking:** IPv4 Addressing, TCP/IP Model, OSI Model, Subnetting, Subnet Masks, Ping, Traceroute, Basic Network Troubleshooting, Cisco Packet Tracer, Network Topologies
- **Linux:** Basic Linux Commands, File and Directory Management, Command-Line Operations
- **Cybersecurity:** Cybersecurity Fundamentals, Basic Security Concepts
- **Computer Hardware:** CPU, RAM, HDD, SSD, Motherboard, BIOS/UEFI, Hardware Fundamentals

EDUCATION

Bachelor of Computer Applications (BCA) | Institute of Advanced Research (IAR) | CGPA: 7.41 / 10

Year of Completion:

CYBERSECURITY TRAINING

Cybersecurity Training — TOPS Technologies, Ahmedabad | Currently Pursuing

Topics covered: Computer Hardware Fundamentals, Computer Networking, IPv4, OSI and TCP/IP Models, Subnetting and Subnet Masks, Linux Fundamentals, and Cybersecurity Fundamentals.

CERTIFICATION

Introduction to Cyber Security — Cisco Networking Academy

TECHNICAL TRAINING & HANDS-ON PRACTICE

- Practiced IPv4 address conversion and subnet calculations.
- Completed subnetting exercises using different subnet masks.
- Studied the OSI and TCP/IP models and their layers.
- Used Ping and Traceroute commands for basic network troubleshooting practice.
- Practiced basic Linux commands through command-line exercises.

STRENGTHS

Quick learner • Interest in cybersecurity and networking • Willingness to learn new tools and technologies • Problem-solving mindset
